Rootd — Rules Content Spec (for Ace)

Purpose: one place for every rule the eligibility engines need. Each rule gets a source, an owner, and a last-verified date before it is coded.
Status key: ✅ confirmed in project docs · ⚠️ needs official-source check · ❓ not yet defined

Display rule (all engines): documents show "present / missing," never "valid / invalid."

---

1. Full Pathway — NLV engine (separate rule set)

Rule	Value	Status
Income type	Passive only (savings, pensions, rental, investments)	✅
Work allowed	None, including remote work	✅
Annual income threshold	~€28,800 (€2,400/mo), IPREM-linked, frozen for 2026	✅

Rule	Value	Status
Dependent add-ons	Amount per dependent	⚠️
Threshold review	Re-check whenever IPREM changes	❓ owner

2. Full Pathway — DNV engine (separate rule set)

Rule	Value	Status
Income type	Active remote-work income	✅
Employer/client location	Outside Spain; up to 20% of income from Spanish sources	✅
Annual income threshold	~€34,200 (~€2,850/mo), SMI-linked, rises annually	✅
Dependent add-ons	Amount per dependent	⚠️
Filing from inside Spain	Unclear whether in-country DNV filing is still allowed	⚠️ official UGE-CE source
Threshold review	Re-check each year when the SMI changes	❓ owner

3. Shared Full Pathway rules

Rule	Value	Status
Consulate-jurisdiction check	Which consulate covers the user's place of residence	⚠️ list per country
Document pipeline	Source documents → Apostille → Sworn translation → Consular submission	✅
Stage-gating	Cannot start a stage until every item in the prior stage is confirmed	✅
Required documents per visa	Full list for NLV and for DNV	⚠️ advisor
Official form links	Curated link per visa (free tier)	⚠️ collect
AI documents	NLV: cover letter, financial declaration. DNV: remote-work income documentation	✅

4. Standalone engine — PR & Citizenship (separate rule set, higher UPL risk)

Nothing here is confirmed. Everything below is a proposed list of questions to settle with the advisor before any logic is

written.

Item	Status
Eligibility inputs (e.g. years resident, current permit type, nationality, gaps in residency, criminal record)	❓ advisor to confirm which are rules vs. discretion
PR timing: 5 years from NLV/DNV start	✅ general rule; edge cases ❓
Citizenship timing: 10 years, with nationality-dependent exceptions	✅ general; exceptions ❓
Which inputs the app may check vs. must hand off to a lawyer	❓ advisor
Document set (e.g. proof of continuous residency)	❓ not scoped

5. Open decisions that affect the build

- Standalone pricing structure
- Replacement for the Phase 1 → 2 credit carryover
- Stronger paid hook beyond the first document
- Whether Standalone gets its own free tier

6. Ownership and cadence

- Named owner for threshold reviews: ❓
- Review cadence (suggested: monthly check, plus each time IPREM/SMI/rules change): ❓

- Every rule carries: source link, owner, last-verified date
