Rootd Onboarding Questionnaire Flowchart v3

New in v3 · Changed from v2 · Same as v2

Updated to follow the main process flow: first open, account profile, dashboard, then the questionnaire. The disclaimer must be agreed to every time a new application starts.

BEFORE THE QUESTIONNAIRE

First open: welcome pop-up
NEW

Welcome message with a short notice that Rootd is not legal advice. The user must agree to continue. The app cannot be used until the user agrees.

Create account profile
NEW

Sign up with email and password, Google account, or Apple ID. Personal information only, and only the essentials that are not specific to any country or application type.

Dashboard
NEW

New user: a large message to start creating an application. Existing user: all applications are shown, with views by country and application type, and a 'Start new application' button.

Start new application
NEW

First time: the user taps the large message. Later: the 'Start new application' button. Every start goes through the same steps below, beginning with the disclaimer.

Disclaimer pop-up (S1_ACK)
CHANGED

Shown every time a user starts a new application.
Message: Rootd is not giving legal advice. It gives information and checklists only.
To continue, the user must agree: "I understand that Rootd is not giving legal advice." The user cannot continue without agreeing.

No

Not agreed

Back to the dashboard. No application is created.

Start setup
CHANGED

Personal information is pre-filled from the account profile.

Stage 1: Where are you in your move to Spain? (S1_TRACK)
CHANGED

The questionnaire is also the eligibility check. The user picks the country and application type here, which sets Full Pathway or Standalone. Same screen for a returning user starting a new application.

Outside Spain

Already live in Spain

Full Pathway: S1_VISA

Which visa? NLV, DNV or not sure

Standalone: S1_APP

Which application? Permanent Residency or Citizenship

Not sure

Free eligibility check. The setup draft is saved.

Stage 2: Profile
CHANGED

Pre-filled from the account profile (nationalities and other personal details). Only asks for what is still missing: consulate (Full Pathway only), nationality on the permit (Standalone only). A returning user only confirms what is already known. If the user changes a pre-filled value, the app asks whether to update the account profile too.

Stage 3: Family members

Marital status, number of family members, details for each person

FULL PATHWAY

STANDALONE

Stage 4A: Income

Income type and monthly amount.
If DNV: work type, client countries, share of Spanish-sourced income.

Stage 4B: Residence

Permit, residence start, trips of 30+ days with reason (work or other).
Permanent residence: type (national, EU, not sure). EU only: income, insurance.
Citizenship: one-year route, Spanish level, CCSE certificate and its date.

Stage 5: Progress and key dates

Current stage (documents, apostille, translation, submitted, granted). Documents: have or missing. Passport expiry, target date, permit expiry, submission details, grant date if granted.

Tracking dashboard

Checklists, countdowns, alerts

Returning user: start new application

Required questions block the next step. Optional questions can be skipped and show as missing.
